## Select TruSlate® Colors Discontinuation Announcement

Our TruSlate® Premium Roofing System continues to play an important role in our overall steep slope product portfolio. A true “best-in-class” solution, TruSlate provides homeowners with the opportunity to get genuine, quarried slate at an affordable price. As with the rest of our products, we continue to focus on ways to improve and provide the best offering by listening to feedback from key customers.

To that end, as of September 1<sup>st</sup>, 2015, we are announcing that we will offer only our, S1-Grade slates exclusively quarried in **North America**. GAF will be discontinuing Greystone, Meadow Green, Rustic Red and Antique Purple slate colors.

**Please review the important information below:**
