Item #3527300 ULTIMATE PIPE FLASHING BOOT 1.25 KYNAR

Item #3527301 ULTIMATE PIPE FLASHING BOOT 1.5 KYNAR

Item #3527302 ULTIMATE PIPE FLASHING BOOT 2" KYNAR

Item #3527303 ULTIMATE PIPE FLASHING BOOT 3" KYNAR

Item #3527304 ULTIMATE PIPE FLASHING BOOT 4" KYNAR

Lifetime Tool® & Building Products LLC's Ultimate Pipe Flashing® employs a break-through design with a proprietary sealing method for plumbing vent pipes and other roof penetrations. The ultra-pure Silicone chosen by the solar, window and curtain wall industries for its well-established success in long term UV/Ozone stability avoids the cracking & splitting found in other products. Our proprietary compression collar prevents the rubber from the inevitable relaxation away from the pipe and it is designed not to cut or notch the silicone. it fits roof pitches from flat to 20/12+. A generous four inches of flashing with nailing slots are provided for the sides and six inches for the top of the unit, assuring a weather-tight seal without messy caulking. Our size specific pipe flashings are designed to last many decades without maintenance and are guaranteed to last the life of original roof covering.

Item #3030520 DRYER JACK DJK466 BLACK

Item #3030521 DRYER JACK DJK466 BROWN

Shorter duct runs, created by venting the dryer straight through the roof, can improve drying efficiency and lessen lint buildup. The new DryerJacks are engineered specifically for dryers. They meet or exceed all code requirements and deliver superior airflow efficiency.

- Zero Airflow Restriction
- Easy Cleaning Access
- Built Tough in the USA
- Damper Design Protects Against Pest Entry

Item #2501109 CHEMLINK F1426GR 1-PART POURABLE SEALER

1-Part is a moisture curing, pourable sealant designed for use in pitch pans and warranted ChemCurb/E-Curb penetration seals. 1-Part is suitable for application in damp, dry, or cold climates. 1-Part is solvent free, contains no isocyanates and will not shrink upon curing. 1-Part can not "out-gas" or bubble on damp surfaces as urethane sealants often do. 1-Part has resilient "elastomeric" properties and excellent adhesion to most construction materials. 1-Part can be used effectively in many difficult construction site conditions and cures in wet or dry climate conditions and at low temperatures (32°F / 0°C). 1-Part's low durometer accommodates greater movement in penetration seals than typical urethane sealants.

For more information visit <https://www.chemlink.com/1-part>

Item #3138002 BUCKET O BAGS 42 GALLON TRASH BAGS

2 Gal Pail w/40 Trash Bags

42 Gal/3 Mil Black Trash Bag

Bag Dimensions: 32" X 50"

20% Hexene Mix Sweetener Material
