Item # 2500530 GACO PATCH WHITE
Item # 2500532 GACO PATCH BLACK

GacoPatch is a flashing grade, standalone silicone roof patch designed to provide a long lasting solution for a leaking roof. The convenient wide top pail makes GacoPatch application easy to do with a trowel or a brush. GacoPatch is a one step application which eliminates the cost of additional products such as primers, seam tapes or top coats.

New and improved technology allows for GacoPatch to be the long term solution for roof repairs. It does not contain asphalts or acrylics and it is extremely durable. GacoPatch remains permanently flexible even under permanent ponding water. It is UV stable and will not chalk, crack or peel. No reinforcements or extra steps are required for horizontal patches, even over 1/2" thick, because GacoPatch resists degradation over time and will not become brittle or break down.

Item # 1411004 KARNAK 19 FLASHING CEMENT 1 Gallon Summer Grade

KARNAK#19 Flashing Cement is a scientifically compounded composition of selected asphalts, mineral fibers, and refined solvents that are manufactured to a heavy consistency for application by trowel to provide a durable, elastic coating of excellent adhesion and high resistance to water and weathering. This product dries to a tough, flexible, waterproof and corrosion proof coating which gives excellent performance over wide ranges of temperature and weather conditions.

KARNAK#19 Flashing Cement is a general purpose cement for repairing leaks in shingles, concrete, metal or asphalt roofs, flashings on walls, chimneys, flues, downspouts and cornices. It is excellent for sealing cracks in concrete and brick, as a joint filler for precast roof slabs and for general purpose use in maintenance of exposed buildings and structures.
