Item #3145800 FALLTECH POSITIONING BELT MEDIUM
 Item #3145801 FALLTECH POSITIONING BELT LARGE

Positioning Belt features a 1-3/4" heavy-duty two-ply workbelt with integral side D-rings (Size Large). For work positioning only, not to be used for fall arrest!

- Two side D-rings
- 7-point adjustability
- 10,000 lb. polyester webbing

Item #3145802 FALLTECH
 ADJUSTABLE RESTRAINT LANYARD
 4-1/2 to 6'

Positioning lanyard features single-leg construction and utilizes 1" polyester webbing for resistance to UV light and abrasion. Also features double-locking snap hooks at the attachment and anchorage ends.

- 1" Webbing has a tensile strength of 9,800lbs and features embedded wear-indicating threads.
- StayPut buckle allows the length to be adjusted to eliminate unnecessary free-fall.
- End terminations feature wear pads for additional safety and long life.
- Both ends feature a steel thimble for extra resistance to wear.
- Meets the requirements of OSHA 1926 and ANSI Z359.

Item #3145805 FALLTECH
 RE-USABLE ROOF ANCHOR
 Product #7410

Constructed using rugged alloy steel with a yellow chromate finish. It is easily installed and removed from trusses or sheathing and uses either 12 #14 x 3 1/2" screws or 20 16d nails. Fits any roof peak up to 12/12 and can also be mounted perfectly flat.

- Rated at over 5,000 lbs.
- Holes are clearly marked for use
- Screw holes are counter-sunk.
- Meets the requirements of OSHA 1926 and ANSI Z359.

Item #3145806 FALLTECH
 PERMANENT USE ROOF ANCHOR
 Product #7431

Constructed using rugged alloy steel D-rings connected by a stainless steel strap. It is easily installed by forming it to conform to any roof peak and driving 10 16d nails through the holes and into the truss. Designed to be covered with ridge caps and left behind for future use.

- Rated at over 5,000 lbs.
- Conforms to any pitch roof.
- Uses 10 common 16d nails.
- Remains permanently installed for future use.
- Meets the requirements of OSHA 1926 and ANSI Z359.

Item #3145810 FALLTECH 20' WEB RETRACTABLE LIFELINE

Fully-featured block with 7/8" polyester webbing and rugged steel housing and drum assemblies. The internal brake mechanism is constructed with hard-wearing bronze pawls and alloy steel spearad. Also features the DuoTech load-indicating snap hook for attachment to the back D-ring of your full body harness.

- 7/8" Polyester web has a tensile strength of 4,500 lbs.
- Steel housing is rugged to withstand the rigors of the toughest job sites.
- Includes free tag line to prevent free-wheeling.
- Fully serviceable, re-certification required every two years.
- Reduces arrest forces to less than 900 lbs.
- Weighs only 8 lbs.
- Meets the requirements of OSHA 1926 and ANSI Z359.
